DETAILED ACTION

Amendment

1. Receipt is acknowledged of the amendment filed 8 October 2003.

Allowable Subject Matter

- 2. Claims 1-35 and 37-51 are allowed.
- 3. The following is an examiner's statement of reasons for allowance:

The best prior art of record fails to teach the specific arrangement of the context sensitive device for selecting a service from a plurality of services wherein there is a card portion that is attached to an electronic apparatus, which has its own memory for retaining a plurality of data items. The best prior art of record of Combaluzier does teach a control unit connectable with a smart card wherein the data is disposed on the back of the card. However, Combaluzier fails to teach the specific arrangement of the data-selectable card with the electronic apparatus that has a plurality of additional information stored for multiple-choice selections as recited in independent claims 1, 16, 26, 35, 37, 40, 46, 48, and 50-51.

Hence the best prior art of record fails to teach the invention as set forth in claims 1-35 and 37-51 and the examiner can find no teaching of the specific context sensitive device, nor reasons within the cited prior art or on her own to combine the elements of these references other than the applicant's own reasoning to fully encompass the current pending claims. In addition, see applicant's reasoning in amendment/responses filed 28 February 2003, 20 May 2003, and 8 October 2003.

Art Unit: 2876

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
